Lagos, Nigeria.

## ABOUT ME

I am a BSE graduate skilled in software debugging, design, and testing. I'm a strong team player who is able to quickly learn and apply new technologies.

## EXPERIENCE

### Backend Developer

Stanforte Edge  
September 2020 - July 2022

Update, maintain, and publish content using a custom content management system API, maintained the projects using Git and GitHub and various other software tools.

### Full stack Developer

Project enable Africa  
August 2019 - May · 2020

Developed and maintain backend API for company official website, deploy backend software to Heroku, used Google Cloud Storage for static files, collaborate with frontend developers and project manager to execute strategists, designers, and creators' visions.

### Junior Backend Developer

EDGD Media  
Feb 2018 - Jun 2019

Implemented the strategy, designs, and creations of the strategists, designers, and creators in collaboration with a senior front-end developer, and produced content.
